Dear Valued Customer

Our reference: 202112\_Logo-New

07.12.2021

**New Design for LPPM Good Delivery Platinum, Palladium with 99.95% Fineness and Gold Kilobar with 99.50% Fineness**

Dear Sir / Madam,

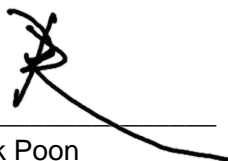

We are pleased to inform you that Heraeus Limited, Hong Kong will launch a new and modernized design of LPPM good delivery platinum, palladium with 99.95% fineness and gold kilobars with 99.50% fineness on 1<sup>st</sup> January 2022.

Please refer to the attached pictures which show samples of LPPM good delivery platinum, palladium with 99.95% fineness and gold kilobar with 99.50% fineness in the current and new designs. The right-hand sides of pictures are the above-mentioned products in the design in which the Heraeus logo has been changed. The new design is in line with the current Heraeus corporate logo which is applicable gradually on a global basis for our products. We shall discontinue to manufacture the captioned products in the current design from 1<sup>st</sup> January 2022 onwards. Yet, both current and new designs are tradable and supported by us, one of the LBMA/LPPM accredited refiners.

For any inquiries, please feel free to call our sales team, customers officers and traders directly.

We look forward to your continuing business.

Yours sincerely,

Dick Poon  
General Manager

Tim Hannoschoeck  
General Manager
