

HERAPUR® SMALL ENGINE CATALYSTS

RICH, HIGH-TEMPERATURE APPLICATIONS

HeraPur® TWC and Oxidation Coatings for Handheld 2-stroke engines or ground supported 4-stroke engines commonly from 1 – 25 hp

Knitted Wire Substrates
highly flexible
in shape and
density

Honeycomb Substrates
for applications with limited space

Tailored Lightweight and Durable Catalyst Solutions

- ✓ Flexible in choice of substrate type & shape.
- ✓ Optimized coatings for different application demands.
- ✓ Specifically tailored, fast and reliable production processes.
